VINEYARD

Crafted in the heart of the Provençal vineyard, **Fan de** wines embody sunshine and the good vibes of the South. Vines bathed in light produce cuvées that are easy to love: balanced, generous and made for 100% enjoyment.

WINEMAKING

The grapes are destemmed and then directly pressed to preserve the purest juice possible.

Fermentation takes place in temperature-controlled tanks, allowing precise control of the process and bringing out the full style and true personality of each grape variety. A slight sweetness from the grape must enhances the wine's indulgent character.

Fan de is the range that brings the South straight into your glass.

Young, fresh and approachable wines, designed for all the moments that matter.

No fuss, just fun and easy-drinking wines, with a colourful, sunny look that speaks to a younger generation and captures the vibrant energy of the South..
